GRANULAR GOPHER REPELLENT

For All
Season
Use

DIRECTIONS FOR USE: When using a rotary spreader, apply at a rate of **1 lb. pound per 625 square feet** **DAY 1: Step 1:** Cover entire area where gopher damage is present. Application should extend 30 feet around or beyond the infested area (indicated by mounds & plant damage). **Step 2:** Apply a second covering by sprinkling liberally within specific beds and plantings where gopher damage is visible. Also sprinkle liberally a 24" wide band around the beds or plantings affected by gopher damage. **Step 3:** Locate mounds, whether plugged or open. Shake about 3 oz. (1/8 of a scoop or a small handful) into each mound. Open plugged mounds to access the tunnels & fill the open mounds with Gopher Scram Professional. Refill with soil. **NOTE: Water the affected area where Gopher Scram Pro has been sprinkled or spread for approximately 20 minutes.** **DAY 14:** Apply Gopher Scram Pro by repeating Day 1 applications. **SEE FULL APPLICATION INSTRUCTIONS INSIDE.**

PRECAUTIONARY STATEMENTS: Wash skin after use. Avoid contact with eyes or cuts. If in eyes, flush with water 15-20 mins. Call Poison Center or doctor for treatment. **Storage:** Store in original sealed container. Store away from direct sunlight or excessive heat. Do not contaminate water by storage or disposal. Do not use on food or feed crops. Do not apply directly to water. **Disposal:** Do not reuse empty container. Dispose of properly. Buyer assumes all responsibility for safety and use not in accordance with directions. EPIC represents that this product qualifies for exemption from EPA registration under Section 25(b) of FIFRA and has not been registered by the EPA.
